

GONZALO GONZÁLEZ MELO

☎ (+56 9) 50688313 - ✉ gtgonzalez@uc.cl - 🌐 gtgonza.github.io
Santiago, Chile

PROFILE

Applied economist with 5+ years of experience in econometric modeling, causal inference, and large-scale data analysis across regulatory, financial, and academic settings. Proficient in Python, R, Stata, and SQL, with hands-on experience in machine learning and natural language processing. Skilled at structuring rigorous quantitative reasoning and communicating complex technical analysis with clarity and precision.

EDUCATION

Pontificia Universidad Católica de Chile M.A. in Applied Economics Thesis: “ <i>Big Data Analysis of Inequality in Chile</i> ” (focus on administrative microdata).	Santiago, Chile 2021 – 2022
School of Economics and Business, Pontificia Universidad Católica de Chile B.Sc. in Commercial Engineering, Major in Economics	Santiago, Chile 2018 – 2021

PROFESSIONAL EXPERIENCE

QA Consultores <i>Economics and Regulation Consultant</i> • Economic Regulation: Built econometric models for tariff-setting processes and efficient-cost estimation (Model Firm framework) in the water utility sector. • International Trade: Developed technical proposals to modernize Chile’s trade-defense system (CNDP), focused on governance and WTO/OECD regulatory consistency. Conducted antidumping investigations, including dumping-margin calculation, normal-value reconstruction, and assessment of injury to the domestic industry. • Litigation and Damages: Estimated economic damages in commercial disputes.	Santiago, Chile Dec 2023 – Present
Fondecyt Research Project – School of Economics and Business, PUC <i>Research Assistant (Prof. Miriam Artiles)</i> • Implemented machine learning algorithms and text-embedding techniques to transform large volumes of unstructured text into quantitative, analysis-ready data. • Built complex panel datasets for advanced econometric models and impact evaluation. • Developed scripts for the large-scale cleaning and validation of microdata in high-standard academic research.	Santiago, Chile Jul 2022 – Present
Universidad de los Andes <i>Research Assistant</i> • Conducted applied research using identification strategies (Difference-in-Differences, RDD) and statistical programming for the analysis of empirical evidence.	Santiago, Chile Jul 2022 – Dec 2023
Fundación Luksic <i>Data and Research Analyst</i> • Automated management reporting (KPI dashboards) for over 300 educational institutions. • Designed and computed key performance indicators (KPIs) for efficient resource allocation. • Audited and consolidated databases drawn from surveys and administrative records.	Santiago, Chile Jul 2021 – Jul 2022
Central Bank of Chile <i>Technical Internship – Statistics Division</i> • Trained supervised classification algorithms using SII tax microdata (electronic invoicing). • Processed large-scale data to generate leading indicators of economic activity.	Santiago, Chile Dec 2020 – Mar 2021

TEACHING

Pontificia Universidad Católica de Chile <i>Instructor</i> – Introduction to Economics	Santiago, Chile 2024 – Present
Universidad de los Andes <i>Instructor</i> – Economics, Statistics, and Quantitative Methods for Decision-Making	Santiago, Chile Jul 2022 – Dec 2023

TECHNICAL SKILLS

- **Economic Analysis:** Applied Econometrics, Causal Inference, Impact Evaluation, Time Series.
- **Data Science:** Python (Pandas, Scikit-learn), R (Tidyverse), SQL, Stata (Advanced), Big Data (Spark), Machine Learning, NLP / Text Embeddings.
- **Quantitative Finance and Regulation:** Project Valuation, Cost of Capital, Efficiency Analysis, Advanced Excel.
- **Other:** LaTeX, Git, Technical and Academic Writing (English and Spanish).

RESEARCH

- **“Molded Culture: The Symbolic Content of Ceramics and Cultural Identity in Pre-Industrial Peru.”**

Co-authored with Miriam Artiles and Mateo Uribe-Castro.
